

ABSTRACT OF THE INVENTION

[0030] A cleanser is provided which may be a glycerin based cleanser to simulate the consistency, appearance, color and smell of ice cream, sherbet or the like. The cleanser may further be agitated to aerate the cleanser to resemble whipped cream such that combining the ice cream resembling cleanser topped with the whipped cleanser may simulate a conventional sundae. The whipped cleanser may have granulated sugar mixed therein so as to enable the mixture of whipped cleanser and granulated sugar to be used as a natural exfoliant.
